

Pharmacy Manager/Business Owner,

This email is to update you on the National Precursor Log Exchange (NPLEx) Project in New Hampshire. In compliance with SB 376, this bill requires all pharmacies in New Hampshire that sell over the counter pseudoephedrine (PSE)/ephedrine (EPH) products to participate in NPLEx, which provides real time PSE electronic tracking in accordance with the Combat Methamphetamine Epidemic Act (CMEA). NPLEx is provided FREE of charge.

**Register your pharmacy today!**

- Go to <https://nplex.appriss.com/retail/pharmacy/loginRegister.do>
- If your pharmacy is not found, you can manually register
  - You will receive a confirmation email with instructions for account set up
- **Optional Scanner:** Pharmacies interested in further enhancing their workflow have the option of purchasing scanners that will scan 2D Driver’s License, product UPC, and capture signature. The State of Wisconsin does NOT require scanners. For additional information, contact Appriss at [NHNPLEx@appriss.com](mailto:NHNPLEx@appriss.com).

**Point-of-Sale Integration:** Over thirty point-of-sale (POS) vendors have completed or are in the process of completing an interface with NPLEx. Appriss does not charge POS vendors for an NPLEx interface. By integrating with the POS software, transactions can be submitted directly to NPLEx from your existing POS system instead of using the NPLEx retail web portal. Please contact your POS vendor to see if this is an option for your pharmacy.

**Don’t Sell OTC PSE?**

If your store does NOT sell over the counter PSE products, please send an email to [NHNPLEx@appriss.com](mailto:NHNPLEx@appriss.com) stating your pharmacy name, DEA #, your name, and that you do not sell PSE over the counter. Otherwise, we look forward to working with you to ensure your business is fully compliant with the law by January 1, 2019.

Thank you,
